

## ONE OF US

One of us will be the one to go ahead  
One of us will be the one to see everything  
One of us will be the one to look into our hearts  
And to know before what will be our fate

**One of us will be the one – and he will prophesy  
- So will it be - as it should be - and not otherwise**

Many of us will be the ones to follow him  
Many of us will be the ones to be with him  
To take the long road with him together  
And to see the world – with his eyes

**Many of us will be the ones – they are not alone  
- So will it be - as it should be - and not otherwise**

One of us will be the one to deny him  
One of us to speak his name  
Who will sell him though we trusted him  
Who will betray him – any help will come too late

**One of us will be the one - try to forgive  
- So will it be - as it should be - and not otherwise**

One of us will be the one to have loved him  
One of us will be the one to cry for him  
In whose thoughts he will be always  
In whose memory he will stay for all times

Some of us walked at her side  
Some of us look after her when he is missing  
Many of us will walk on with her  
Many of us will see him in her

**One of us will be the one - and she will not stay alone  
- So will it be - as it should be - and not otherwise**
